## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

- a. Please cancel claims 61-64.

### ***Election/Restrictions***

1. This application is in condition for allowance except for the presence of claims 61-64 directed to group II non-elected without traverse. Accordingly, claims 61-64 have been cancelled.

### ***Allowable Subject Matter***

2. Claims 1-60 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the prior art fails to disclose or make obvious a support for an array of fluorescently labeled samples having a transparent body that enables imaging of the array having a field of embedded optical features located below and spaced from the array-support surface so that light reaching the optical features must then pass through the transparent body to reach the

support surface and labeled samples; and the field optical features and the support being constructed and arranged so that a light beam addressed to the optical features can be launched through the transparent body at an acute angle to the sample-receiving array-support surface to produce a surface wave effect that travels laterally in the transparent body adjacent the surface, and in combination with the other recited limitations of claim 1. Claims 2-60 are allowed by the virtue of dependency on the allowed claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
